CHAINS

The history of surveys of Township 21 South, Range 6 East, Salt Lake Meridian, Utah, is as follows:

History of Surveys

<u>Surveyed by</u>	<u>Retr. or Resurveyed by</u>
--------------------	-------------------------------

SOUTH BOUNDARY

E. 3½ miles	A.D. Ferron	1873	
W. 2½ miles	H.W. Miller	1918	
E. ½ of S. Bdy., Sec. 33			
	H.W. Miller		1918

EAST BOUNDARY (Second Guide Meridian East)

All	A.D. Ferron	1873	
N. 2 miles			H.W. Miller 1918
S. 4 miles			G.B. Hatch 1962 - 1963

SUBDIVISIONS

SE portion	A.D. Ferron	1873	
Portion			H.W. Miller 1918
NW portion	H.W. Miller	1919	

The following field notes describe the dependent resurvey of the E. 3 miles of the south boundary and a portion of the subdivisional lines, T. 21 S., R. 6 E., Salt Lake Meridian, Utah.

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 577, Utah, dated April 17, 1978.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The directions of lines were determined by means of fore- and backsights and angular deflections from azimuths obtained by observations on Polaris.

The geographic position of the southeast corner of the township as determined by a tie to the U.S.G.S. triangulation station "SEC COR 36/22S/5E" is as follows:

Latitude 38°56'23.0" N. Longitude 111°11'11.5" W.

The mean magnetic declination is 14° 15' E.

Dependent Resurvey of the E. 3 Miles of the S. Bdy., T. 21 S., R. 6 E., Salt Lake Meridian, Utah

(Restoring the Survey Executed by A.D. Ferron in 1873)

CERTIFICATE OF SURVEY

~~(X)~~(We), Glen B. Hatch, Supervisory Cadastral Survey and HEREBY
 Ferrel D. Reynolds, Cadastral Surveyor
 CERTIFY upon honor that, in pursuance of special instructions bearing date of the 17th day
 of April, 19 78, ~~(X)~~(We) have dependently resurveyed the East
 3 miles of the south boundary and a portion of the subdivisional lines of
 T. 21 S., R. 6 E.,

of the Salt Lake Meridian, in the State of Utah, which
 are represented in the foregoing field notes as having been executed by ~~(us)~~ (us) and under ~~(our)~~
 (our) direction; and that said survey has been made in strict conformity with said special instruc-
 tions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in
 specific manner described in the foregoing field notes.

Portion		H.W. Miller 1918
Completion	H.W. Miller 1918	

The following field notes describe the dependent resurvey of the south boundary, the south 2 miles of the west boundary, and a portion of the subdivisional lines of the township.

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 577, Utah, dated April 17, 1978.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions. Lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The directions of lines were determined by means of fore- and backsights and angular deflections from azimuths obtained by observations on Polaris.

The geographic position of the southwest corner of the township, identical with U.S.G.S. Triangulation Station, "SEC COR 36/22S/5E" is as follows:

Latitude 38° 51' 04.875" N. Longitude 111° 17' 53.343" W.

The mean magnetic declination is 14° 15' E.

General Description

The southeast part of the township is high, broken, mesa land with steep cliffs formed by Quitcupah and Muddy Creek, which drain in a general southerly direction. On the mesa tops are scattered to dense pinon pines and juniper trees. The main body of the township consists of barren, rolling, desert land penetrated by washes and clay and gravel ridges. There is some farm land in the north and northeast parts of the township. Sections 5 and 6 are mountainous. There are coal deposits in the township and the area has been mined for coal for many years. Browning Coal Mine is located in the SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 33.

Township 22 South, Range 6 East, Salt Lake Meridian, Utah

CHAINS

The town of Emery is located in sections 4 and 9. State Highway 10 runs through Emery in an East - West direction and through sections 2, 3, 8, 9, 17, 19, 20, 30, and 31 in a Northeast - Southwest direction. The west boundary of the township is identical with the Sevier - Emery County boundary.

Access is south from Price on Highway 10 approximately 50 miles and east from Salina approximately 38 miles on Interstate 70 and 12 miles north on Highway 10.

CERTIFICATE OF SURVEY

~~(XX)~~We), Glen B. Hatch, Supervisory Cadastral Survey and , HEREBY
 Ferrel D. Reynolds, Cadastral Surveyor
 CERTIFY upon honor that, in pursuance of special instructions bearing date of the 17th day

of April , 19 78, ~~(XX)~~We) have dependently resurveyed the south
 boundary, the south 2 miles of the west boundary, and a portion of the
 subdivisional lines of Township 22 South, Range 6 East,

of the Salt Lake Meridian, in the State of Utah , which
 are represented in the foregoing field notes as having been executed by ~~(me)~~ (us) and under ~~(my)~~
 (our) direction; and that said survey has been made in strict conformity with said special instruc-
 tions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in
 specific manner described in the foregoing field notes.

Township 4 North, Range 1 East, Salt Lake Meridian, Utah

CHAINS

The following field notes are those of the dependent resurvey of the Salt Lake Meridian through T. 4 N., and the east $\frac{1}{2}$ mile of the south boundary of T. 5 N., R. 1 W., Salt Lake Meridian, Utah.

The south 1 mile of the Salt Lake Meridian through T. 4 N., was surveyed by Joseph Barton in 1881. The south 1 mile was resurveyed and the north 5 miles surveyed by Otto E. Salomon in 1886. The south boundary of sec. 36, T. 5 N., R. 1 W., was surveyed by A.D. Ferron in 1870. The west $\frac{1}{2}$ mile of the south boundary of sec. 36, was resurveyed by R.C. Yundt in 1952. The southwest cor. of T. 4 N., R. 1 E., was remonumented by R.C. Yundt in 1952 as described in the field notes of the dependent resurvey of the W. bdy. of T. 3 N., R. 1 E.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated March 10, 1980.

The directions of lines refer to the true meridian as determined by observations on Polaris and direct altitude observations of the sun, projected by fore- and backsights.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate distances based on the original record. The retracement data were thoroughly verified and only true line field notes are given herein.

The geographic position of the southwest corner of T. 4 N., R. 1 E., as determined by a tie, made by the Davis County Surveyor, to the United States Coast and Geodetic Survey triangulation station "Francis Peak" is as follows:

Latitude $41^{\circ} 01' 52.2''$ N. Longitude $111^{\circ} 53' 29.3''$ W.

The mean magnetic declination is $15^{\circ} 30'$ E.

Dependent Resurvey of the East $\frac{1}{2}$ Mile of the South Boundary of Sec. 36, T. 5 N., R. 1 W., Salt Lake Meridian, Utah

(Reestablishment of the Survey Executed by A.D. Ferron, Deputy Surveyor, in 1870)

Beginning at the cor. of Tps. 5 N., Rs. 1 E. and 1 W., monumented with an iron pipe, 2 ins. diam., firmly set, projecting 5 ins. above a mound of stone, with a Davis County brass cap, 3 ins. diam., mkd.

General Description

The Salt Lake Meridian through Township 4 North, lies within the Wasatch National Forest along a steep, broken west slope of the Wasatch Mountains, in northeastern Davis County, Utah. The City of Layton is situated approximately 4 miles to the west.

Township 4 North, Range 1 East, Salt Lake Meridian, Utah

CHAINS

The elevation varies from about 5300 to 6400 ft. above sea level. General drainage is to the west by several small intermittent and perennial streams. The soil is rocky and of poor quality throughout the length of the line. Vegetation consists predominately of oak and maple brush with scattered stands of mountain mahogany and white fir.

Access is by U.S. Highway 89, which parallels the meridian along the base of the mountains approximately 1 mile to the west, several private roads on the bench land and canyon trails within the Wasatch National Forest.

There are no improvements within the immediate vicinity of the area surveyed.

The mean magnetic declination was found to be $15\frac{1}{2}^{\circ}$ E.

-----	------------------	------

SUBDIVISION

Portion	Leslie H. Godwin	1958
---------	------------------	------

The following field notes are those of a dependent resurvey of a portion of the south boundary of T. 6 S., R. 18 W., and a portion of the east and west boundaries and a portion of Mineral Survey Nos. 5773 and 6040 and a completion survey of the subdivisional lines of T. 7 S., R. 18 W., Salt Lake Meridian, Utah.

The survey was executed in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated January 26, 1979.

The directions of the lines of this survey were determined by reference to the true meridians established on line by hour angle observations on Polaris. They were carried forward by sustained angulation, being supplemented by numerous other observations on Polaris taken throughout the progress of the survey.

The distances along surveyed lines were determined by electronic measurement.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The character of the land is rolling hills, the soil is rocky and the timber consists of scattered juniper and pinon. Since the character of the land, soil, and timber is basically the same, no description will be given at the end of each mile.

The geographic position of the southeast corner of the Tp., is at Latitude 40° 10' 01.3" N. and Longitude 113° 48' 48.5" W., as calculated from U.S.C.&G.S. triangulation station "DUTCH" located in the NW portion of sec. 14, and is at Latitude 40° 13' 24.7204" N. and Longitude 113° 50' 36.7368" W.

The mean magnetic declination is 17° E.

Dependent Resurvey of a Portion of the South Boundary
of T. 6 S., R. 18 W., Salt Lake Meridian, Utah

CHAINS	Dependent Resurvey of a Portion of the South Boundary of T. 6 S., R. 18 W., Salt Lake Meridian, Utah
	(Restoring the 1958 Survey by Leslie H. Godwin)
	Beginning at the cor. of Tps. 6 and 7 S., R. 18 W., monumented with an iron post, 2½ ins. diam., firmly set in the ground, with brass cap mkd. as described in the official record of the 1958 survey of the W. bdy. of T. 6 S., R. 17 W.
	N. 89° 59' W., along the S. bdy. of sec. 36.
	Over rolling land, through scattered sagebrush and shadscale.
34.49	The witness cor. to the ¼ sec. cor. of sec. 1, T. 7 S., R. 18 W., hereinafter described.
35.02	True point for the ¼ sec. cor. of sec. 1, T. 7 S., R. 18 W., hereinafter described.
39.97	The ¼ sec. cor. of sec. 36, T. 6 S., R. 18 W., monumented with an iron post, 2½ ins. diam., firmly set and exposed 6 ins. above the ground, with brass cap mkd. as described in the official record of the 1958 survey.
	N. 89° 54' W., beginning new measurement.
	Over rolling land.
35.00	The cor. of secs. 1 and 2, T. 7 S., R. 18 W., monumented with an iron post, 2½ ins. diam., firmly set and exposed 5 ins. above the ground, with brass cap mkd. as described in the official record of the 1958 survey.
39.92	The cor. of secs. 35 and 36, T. 6 S., R. 18 W., monumented with an iron post, 2½ ins. diam., firmly set and exposed 3 ins. above the ground, with brass cap mkd. as described in the official record of the 1958 survey.
	From the ¼ sec. cor. of sec. 35, T. 6 S., R. 18 W., monumented with an iron post, 2½ ins. diam., firmly set in a mound of stone, with brass cap mkd. as described in the official record of the 1958 survey.
	N. 89° 58' W., along the S. bdy. of sec. 35.
	Over rolling land.
35.01	The cor. of secs. 2 and 3, T. 7 S., R. 18 W., monumented with an iron post, 2½ ins. diam., firmly set and exposed 7 ins. above the ground, with brass cap mkd. as described in the official record of the 1958 survey.
39.94	The cor. of secs. 34 and 35, T. 6 S., R. 18 W., monumented with an iron post, 2½ ins. diam., firmly set and exposed 5 ins. in the ground, with brass cap mkd. as described in the official record of the 1958 survey.

Township 7 South, Range 18 West, Salt Lake Meridian, Utah

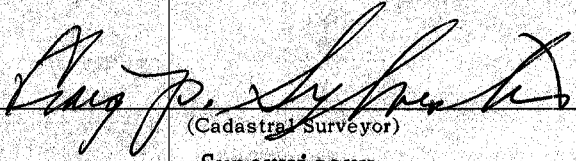

CHAINS	<p data-bbox="711 352 1015 384">General Description</p> <p data-bbox="423 411 1328 868">The land within T. 7 S., R. 18 W., is mainly rolling hills and mountains. Drainage is in a north and east direction towards the Great Salt Lake Desert. Elevation of the township ranges from 4300 ft. to 7794 ft., which is the highest point on Dutch Mountain, located in the north half of sec. 14. The soil is principally gravelly, covered with black sagebrush and shadscale at the lower elevations and scattered pinon and juniper on the higher slopes. There is one maintained dirt road, which enters the township on the E. bdy. of sec. 36 and leaves on the W. bdy. of sec. 7. There are numerous other old roads throughout the township that were used for mining operations. There are numerous patented mining claims in the township, with little or no activity.</p>	

CERTIFICATE OF SURVEY

~~XX~~(We), Craig P. Sylvester, Supervisory Cadastral Surveyor, HEREBY
 Ferrel D. Reynolds, Cadastral Surveyor
 CERTIFY upon honor that, in pursuance of special instructions bearing date of the 26th day

of January, 1979, ~~XX~~(We) have dependently resurveyed a portion of
 the south boundary of T. 6 S., R. 18 W., and a portion of the east and
 west boundaries and a portion of Mineral Survey Nos. 5773 and 6040, and
 made a completion survey of the subdivisional lines of Township 7 South,
 Range 18 West,

of the Salt Lake Meridian, in the State of Utah, which
 are represented in the foregoing field notes as having been executed by ~~XX~~ (us) and under ~~XX~~
 (our) direction; and that said survey has been made in strict conformity with said special instruc-
 tions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in
 specific manner described in the foregoing field notes.

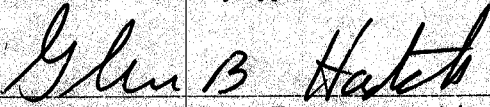

<u>August 6, 1982</u> (Date)	 (Cadastral Surveyor) Supervisory
<u>August 6, 1982</u> (Date)	 (Cadastral Surveyor)

CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT
 Denver, Colorado

The foregoing field notes of the dependent resurvey of a portion of the south
 boundary of T. 6 S., R. 18 W., and a portion of the east and west boundaries
 and a portion of Mineral Survey Nos. 5773 and 6040 and completion survey of
 the subdivisional lines of T. 7 S., R. 18 W., Salt Lake Meridian, Utah

executed by Craig P. Sylvester, Supervisory Cadastral Surveyor
 Ferrel D. Reynolds, Cadastral Surveyor
 having been critically examined and found correct, are hereby approved.

<u>September 10, 1982</u> (Date)	 (Chief, Cadastral Survey Examination and Approval Staff) Chief Cadastral Surveyor for Utah
-------------------------------------	---

CERTIFICATE OF TRANSCRIPT

I CERTIFY That the foregoing transcript of the field notes of the above-described surveys in
 is a true copy of the original field notes.

The cor. of secs. 2, 3, 10, and 11 was remonumented in 1968 by Ferrel D. Reynolds under the remonumentation cooperative agreement between the U.S. Forest Service and the BLM.

The following field notes describe the dependent resurvey of the Salt Lake Meridian through a portion of Township 5 North, the east 3 miles of the north boundary, a portion of the subdivisional lines and the survey of a portion of the subdivision of sections 2, 14 and 24 of Township 5 North, Range 1 West, Salt Lake Meridian, Utah.

The survey was executed in accordance with specifications as set forth in the Manual of Survey Instructions, 1973, and the Special Instructions for Group 590, Utah, dated March 29, 1979.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun, and by hour angle observations on Polaris. The lines were carried forward by sustained angulation, being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original corners or other calls of the original field note record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the corner of sections 25, 30, 31, and 36, on the E. bdy. of the township, as determined by a tie to the United States Coast and Geodetic Survey triangulation station "MG-16 (USBR)" is as follows:

Latitude $41^{\circ} 07' 56.8''$ N. Longitude $111^{\circ} 53' 27.1''$ W.

The mean magnetic declination is $15^{\circ} 30'$ E.

Dependent Resurvey of the Salt Lake Meridian through
a Portion of T. 5 N., Salt Lake Meridian, Utah

CHAINS

Dependent Resurvey of the Salt Lake Meridian through
a Portion of T. 5 N., Salt Lake Meridian, Utah

(Restoring the Surveys Executed by A.D. Ferron
in 1871 and Otto Solomon in 1886)

Beginning at the cor. of secs. 25, 30, 31, and 36, T. 5 N.,
R. 1 W., and 1 E., monumented with an iron post, 2½ ins.
diam., firmly set, projecting 10 ins. above ground, with
brass cap mkd. as described in the official record of
the 1972 dependent resurvey of the east boundary of sec.
36, T. 5 N., R. 1 W.

Raise a mound of stone, 3 ft. base, encircling cor. to
top of cap.

Cor. is located 3 ft. NE of intersection of fences
extending south and west.

From this cor., U.S.C. & G.S. triangulation station MG-16
(USBR) bears N. 89° 51' W., 205.30 chs. dist., monumented
with a standard brass cap mkd. MG.16 1954. The geographic
position is as follows: Latitude 41° 07' 57.09" N.
Longitude 111° 56' 24.19" W.

N. 0° 18' E., bet. secs. 25 and 30.

Over mountainous land, through scattered patches of dense
undergrowth; asc. over SW slope.

40.16 Point for the ¼ sec. cor. of secs. 25 and 30, at propor-
tionate distance; there is no remaining evidence of the
original corner.

Set an aluminum post, 28 ins. long, 2½ ins. diam., 20 ins.
in the ground to bedrock, encircled by a mound of stone,
3 ft. base, to top of aluminum cap, mkd.

	<p style="text-align: center;">General Description</p> <p>The land encompassed in this survey is located within the Wasatch National Forest and Weber County, within the borders of Ogden City.</p> <p>Drainage is generally to the west by way of Malans Creek, Strong's Creek, Beus Creek, Burch Creek, Dry Creek, Spring Creek, and Weber River. The elevation varies from 4800 ft. at the southwest corner of section 24 to 8,600 ft. in the southeast corner of section 1.</p> <p>Access is by way of Interstate Highway No. 80 and 15, and State Highway No. 89 along with Harrison Blvd.</p> <p>There are scattering stands of timber including aspen, maple, burch, and pine. The undergrowth consists of oak brush and sagebrush.</p> <p>The principal use of the area is for water shed and recreation by hunters, hikers and campers.</p> <p>The improvements noted were development of subdivisions for private homes, located in the south half of section 14 and the west half of section 24.</p> <p>The mean of a considerable number of observations of the magnetic declination throughout the township is 15° 30' E.</p>

CERTIFICATE OF SURVEY

(I) (~~We~~), Frank C. Profaizer, Jr.

HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 29th day

of March, 1979, (I) (~~We~~) have dependently resurveyed the Salt Lake Meridian through a portion of Township 5 North, the east 3 miles of the north boundary, a portion of the subdivisional lines and surveyed a portion of the subdivision of sections 2, 14 and 24 of Township 5 North, Range 1 West,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by (me), (~~us~~) and under (my) (~~our~~) direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

SUBDIVISION

A11	A.J. Stewart	1884	
-----	--------------	------	--

The following field notes are those of a dependent resurvey of a portion of the north boundary and the subdivisional lines, and the survey of the subdivision of sections 4 and 6 in Township 27 South, Range 14 West, Salt Lake Meridian, Utah.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions dated August 2, 1979.

The directions of the lines of this survey were determined by reference to the true meridians established on line by hour angle observations on Polaris. They were carried forward by sustained angulation, being supplemented by numerous other observations on Polaris taken throughout the progress of the survey.

The distances were determined by electronic measurement.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identifield corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the southeast corner of the township, as computed from ties made to U.S.G.S. triangulation stations "NEW" and SEC COR 32, 33, 5, Ts. 27 and 28 S., R. 14 W., hereinafter described, is as follows:

Latitude 38° 24' 42.53" N. Longitude 113° 21' 43.57"

	<p style="text-align: center;">General Description</p> <p>Township 27 South, Range 14 West is located about 20 miles west of Milford, Utah. The township consists of rolling desert land in Wah Wah Valley. The vegetation is bunch grass, sagebrush and shadscale, there is no timber. The only permanent habitation is Wah Wah Ranch, located in sec. 4. Utah State Highway No. 21, enters the township on the E. bdy. of sec. 13, bearing NW and leaves the township on the W. bdy. of sec. 1. The elevation varies from about 4800 to 5200 ft. above mean sea level.</p>

~~(X)~~(We), Craig P. Sylvester and Ferrel D. Reynolds, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 2nd day

of August, 19 79, ~~(X)~~(We) have dependently resurveyed a portion of the north boundary and the subdivisional lines, and surveyed the subdivision of Sections 4 and 6 of Township 27 South, Range 14 West,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by ~~(X)~~(us) and under ~~(X)~~(our) direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT
Denver, Colorado

The foregoing field notes of the dependent resurvey of a portion of the north boundary and the subdivisional lines, and the survey of the subdivision of Sections 4 and 6 of Township 27 South, Range 14 West, Salt Lake Meridian, Utah

executed by Craig P. Sylvester, Supervisory Cadastral Surveyor
Ferrel D. Reynolds, Cadastral Surveyor
having been critically examined and found correct, are hereby approved.

The following field notes are those of the dependent resurvey of the east boundary, a portion of the north and south boundaries, and a portion of the subdivisional lines, and the survey of a partial subdivision of section 2, Township 27 South, Range 15 West, Salt Lake Meridian, Utah.

The survey was executed in accordance with the specifications as set forth in the Manual of Surveying Instructions 1973, and the Special Instructions dated August 2, 1979.

The directions of the lines of this survey were determined by reference to the true meridians established on line by hour angle observations on polaris. They were carried forward by sustained angulation being supplemented by numerous other observations on Polaris taken throughout the progress of the survey.

The distances along surveyed lines were determined by electronic measurement.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

Township 27 South, Range 15 West, Salt Lake Meridian, Utah

CHAINS

The geographic position of the southeast corner of the township as determined by a tie to U.S.G.S. triangulation station, "SEC COR 32, 33, 5 TS. 27 - 28 S., R. 14 W., is as follows:

Latitude 38° 24' 42.9" N. Longitude 113° 28' 21.5" W.

The mean magnetic declination is 16° East.

Dependent Resurvey of a Portion of the S. Bdy. of
T. 27 S., R. 15 W., Salt Lake Meridian, Utah

(Restoring the 1882 Survey by Henry Fitzhugh)

Beginning at the cor. of Tps. 27 and 28 S., Rs. 14 and 15 W., monumented with an iron post, 3 ins. diam., firmly set extending 10 ins. above ground, in a mound of stone, with brass cap mkd. as described in the official record of the 1936 dependent resurvey of the S. bdy. of T. 27 S., R. 14 W.

West, bet. secs. 1 and 36.

Over gently rolling desert land, through sagebrush and shadscale.

40.17

The $\frac{1}{4}$ sec. cor. of secs. 1 and 36, monumented with a lava stone, 14 x 12 x 8 ins., firmly set 8 ins. in the ground and plainly mkd. $\frac{1}{4}$ on N face.

At the corner point

Set an iron post, 28 ins. long, $2\frac{1}{2}$ ins. diam., 22 ins. in the ground, and in a collar of stone, with brass cap mkd.

	<p style="text-align: center;">General Description</p> <p>The area resurveyed in T. 27 S., R. 15 W., is mostly rolling foothills with some nearly level desert land along the east boundary. The elevation ranges from about 5,200 to 6,200 ft. above sea level. The soil varies from sandy clay loam in the lower valleys to very rocky at the higher elevations. The vegetation consists of sagebrush, shadscale, and native grasses in the valleys to scattering juniper and pinon in the higher slopes. All drainage is to the east into Wah Wah Valley. The principal use is livestock grazing.</p> <p>The mean magnetic declination is 16° East.</p>

CERTIFICATE OF SURVEY

~~XXX~~(We), Craig P. Sylvester and Ferrel D. Reynolds, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 2nd day

of August, 1979, ~~XX~~(We) have dependently resurveyed the east boundary, a portion of the north and south boundaries, and a portion of the subdivisional lines and surveyed a partial subdivision of section 2 of Township 27 South, Range 15 West,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by ~~XXX~~ (us) and under ~~XXX~~ (our) direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

CERTIFICATE OF APPROVAL

BUREAU OF LAND MANAGEMENT
Denver, Colorado

The foregoing field notes of the dependent resurvey of the east boundary, a portion of the north and south boundaries, and a portion of the subdivisional lines and the survey of a partial subdivision of section 2 of Township 27 South, Range 15 West of Salt Lake Meridian, Utah

executed by Craig P. Sylvester, Supervisory Cadastral Surveyor
Ferrel D. Reynolds, Cadastral Surveyor
having been critically examined and found correct, are hereby approved.

TOWNSHIP 3 NORTH, RANGE 20 EAST, SALT LAKE MERIDIAN, UTAH

CHAINS

The history of surveys of Township 3 North, Range 20 East, Salt Lake Meridian, Utah, is as follows:

The state line between Utah and Wyoming, the north boundary of the township, was surveyed by A. V. Richards, astronomer and surveyor in 1873. The state line, south boundary of T. 12 N., R. 109 W., Sixth Principle Meridian, Wyoming, between mile post 293 and mile post 296 was retraced by Adams and Saxon in their retracement of the south boundary of T. 12 N., R. 109 W., in 1909. The state line, south boundary of T. 12 N., R. 108 W., Sixth Principle Meridian, Wyoming, between mile post 288 and mile post 293, was retraced by H. Jaeckel and E. Voigt in their retracement of the south boundary of T. 12 N., R. 108 W., in 1911. A portion of the east boundary and a portion of the subdivisional lines were surveyed by A. D. Ferron in 1878. A portion of the south boundary and the subdivisional lines of the west two ranges was surveyed by A. Jessen in 1893. A portion of the east and south boundaries, and a portion of the subdivisional lines were surveyed by S. P. Stewart and J. R. Stewart in 1906. A number of corners within this township were remonumented by F. D. Reynolds in 1969, and 1971 under the remonumentation cooperative agreement between the Bureau of Land Management and U. S. Forest Service.

The following field notes are those of the retracement of portions of the north boundaries of Tps. 3 N., Rs. 20 and 21 E., (Utah-Wyoming State Boundary) and the dependent resurvey of portions of the south and east boundaries, and a portion of the subdivisional lines, and the survey of a portion of the subdivision lines in sections 15, 22, and 23, and a portion of the Flaming Gorge Recreation Area of T. 3 N., R. 20 E., Salt Lake Meridian, Utah.

Before restoring the corners, the lines of the original survey were retraced and a diligent search made for any evidence of the original corners, bearing trees, and calls of the original field note records. When duly identified the corner positions were remonumented.

The rules of proportionate measurement were applied in order to ascertain the position of lost corners, after completing the necessary retracements to connect the identified corner locations, but not until exhausting every reasonable possibility of finding direct evidence for the control of each particular corner.

The dependent Resurvey and survey were executed in accordance with the specifications as set forth in the Manual of Surveying Instructions, 1947, the Manual of Surveying Instructions, 1973, and the Special Instructions, dated July 21, 1970.

The directions of lines refer to the true meridian as determined by observations of Polaris and direct altitude observations on the sun, projected by fore- and back-sights.

The geographic position of the angle point bet. secs. 25 and 30, T. 3 N., Rs. 20 and 21 E., as determined by a tie to the United States Coast and Geodetic Survey triangulation station "SMITH" is as follows:

Latitude 40°58'02.5" N. Longitude 109°36'28.3" W.

The mean magnetic declination is 16°30' E.

Retracement of a Portion of the Utah - Wyoming
State Boundary, Mile Post 288 through Mile Post 296

CHAINS	Retracement of a Portion of the Utah - Wyoming State Boundary, Mile Post 288 through Mile Post 296
	Retracement of the Survey Executed by A. V. Richards, Astronomer and Surveyor in 1873, and the Retracement Executed by H. Jaeckel and E. Voigt, Deputy Surveyors, in 1909
	Beginning at State Line Mile Post No. 288, monumented with a cedar post, 6 ft. long, 4 ins. square, firmly set, mkd. Wyoming on N, Utah on S, and dim scribe markings on E and W face.
	At the corner point
	Set an iron post, 28 ins. long, 2½ ins. diam., 14 ins. in the ground to bedrock, in a mound of stone, 4½ ft. base to top of brass cap mkd.
	<div>Wyoming</div> <div>Mile Post</div> <div>No. 288</div> <div>Utah</div> <div>1977</div>
	Set the mkd. cedar post alongside the iron post.
	N. 89°15' W., on the 289th Mile.
	Over broken land; asc. along steep rocky S slope.
30.00	Top of spur, slopes SW; desc. over NW slope.
48.00	High water mark on Flaming Gorge Reservoir, bears NE and SW.
81.36	Point for the State Line Mile Post No. 289, at propor- tionate distance, is under water.
	N. 89°58' W., on the 290th and 291st Miles.
	Over water.
79.53	Point for the State Line Mile Post No. 290, at propor- tionate distance, is under water.
159.06	Point for the State Line Mile Post No. 291, at propor- tionate distance, is under water.
	N. 89°58' W., on the 292nd Mile.
	Over water.
63.82	High water mark of Flaming Gorge Reservoir, bears NE and SW; asc. over gradual SE slope through scattering sagebrush and native grasses.

Retracement of a Portion of the Utah - Wyoming
State Boundary, Mile Post 288 through Mile Post 296

CHAINS	
65.42	Point for the closing cor. of secs. 13 and 18, T. 3 N., Rs. 20 and 21 E., hereinafter described.
79.76	Point for the State Line Mile Post No. 292, at proportionate distance; there is no remaining evidence of the original cor. This cor. point is not monumented.
	N. 89°58' W., on 293rd Mile. Over gentle rolling land in Lucerne Valley.
3.20	Dirt road, bears NE and SW; asc. over gradual E slope.
37.75	Road, asphalt, bears NW to highway, WYO 530 and SE to Lucerne Valley Development.
66.08	Point for the closing cor. of secs. 13 and 14, T. 3 N., R. 20 E., hereinafter described.
72.80	Bottom of draw, drains S; thence along gentle S slope.
79.76	State Line Mile Post No. 293, which is monumented with a wood post, 42 ins. long, 6 ins. square, scribed 293, no other scribing legible, loosely set, 6 ins. in the ground, and in a collar of stone. At the corner point Set an iron post, 28 ins. long, 2½ ins. diam., 24 ins. in the ground, surround the base with concrete, with brass cap mkd. <div style="text-align: center;"> WYOMING MILE POST <hr/> NO 293 UTAH 1970 </div>
	Deposit the wood post monumented alongside the iron post, and raise a mound of stone, 4 ft. base, 2½ ft. high, N of corner.
	S. 89°44' W., on 294th Mile. Over gentle rolling land, through scattered sagebrush and native grasses.
6.50	High water mark of Flaming Gorge Reservoir, bears N and S, over water.
13.50	High water mark of Flaming Gorge Reservoir, bears S and NE; along S slope of spur.
20.00	High water mark of Flaming Gorge Reservoir, bears NW and SE; over water.
22.50	High water mark of Flaming Gorge Reservoir, bears N and S; asc. over E slope.

Retracement of a Portion of the Utah - Wyoming
State Boundary, Mile Post 288 through Mile Post 296

CHAINS	
26.50	Top of spur, slopes S; desc. over W slope.
31.00	High water mark of Flaming Gorge Reservoir, bears NE and S; over water.
33.50	High water mark of Flaming Gorge Reservoir, bears S and NE; along gentle slope of tip of spur.
37.30	High water mark of Flaming Gorge Reservoir, bears NW and SE; over water.
66.77	Point for the closing cor. of secs. 14 and 15, T. 3 N., R. 20 E., hereinafter described.
78.97	Point for the State Line Mile Post No. 294, at proportionate distance, is under water.
	S. 89°44' W., on the 295 Mile. Over water.
28.39	Point for the $N\frac{1}{4}$ sec. cor. of sec. 15, at proportionate dist.; is under water.
31.00	High water mark of Flaming Gorge Reservoir, bears NW and SE; asc. over NE slope.
33.00	Top of ascent, bears NW and SE; over nearly level land; along fence line.
33.39	The point for Angle Point No. 21 of the Flaming Gorge National Recreation Area Boundary. Set an iron post, 28 ins. long, 2½ ins. diam., 24 ins. in the ground, with brass cap mkd. <div><div>AP 21</div><div>FGNRA</div><div>S 15</div><div>T 3 N R 20 E</div><div>1970</div></div>
	Cor. is located in fence line which bears E and W. Continue along fence line on N edge of gravel road.
68.98	Point for the closing cor. of secs. 15 and 16, T. 3 N., R. 20 E., hereinafter described.
78.82	Point for the State Line Mile Post No. 295, at proportionate distance; there is no remaining evidence of the original cor. This cor. point is not monumented.
	S. 89°44' W., on 296th Mile. Along fence line on N edge of gravel road.

Retracement of a Portion of the Utah - Wyoming
State Boundary, Mile Post 288 through Mile Post 296

CHAINS

- 31.70 Center line of Utah Highway No. 43, bears S. 47°33' W. and Wyoming Highway No. 530, bears N. 47°33' E.
- 39.65 Transmission line, bears N. 48°14' W. and S. 48°14' E.
- 68.97 A rebar, 5/8 ins. diam., projecting 6 ins. above ground, in alignment with fences projecting E and W, and a gravel road bearing S. 0°45' E. This point has been used by local surveyors as the point for the closing cor. of secs. 16 and 17, T. 3 N., R. 20 E., and is accepted as a careful and faithful perpetuation of the position of the original cor.

From this point, a power pole, 12 ins. diam., bears N. 86° W., 40½ lks. dist.

- 78.82 State Line Mile Post No. 296, monumented with a piece of charred wood in fence line, bearing E and W, and is accepted as the best available evidence of the original cor. position.

At the corner point

Set an iron post, 28 ins. long, 2½ ins. diam., 24 ins. in the ground, with brass cap mkd.

5.00	Angle Point No. 21, of the Flaming Gorge National Recreation Area Boundary and on the north boundary of the township, heretofore described.
	<p style="text-align: center;">General Description</p> <p>The land encompassed in this survey is located about three miles east of the town of Manila. The Flaming Gorge National Recreation Area Boundary runs northerly through the township. The general drainage is in an easterly direction. The elevation ranges from about 6,000 ft. above sea level to about 7,000 ft. above sea level. Access is by a number of trail roads in the township. The timber consists of widely scattered juniper and pinon.</p> <p>The mean of a considerable number of readings of the magnetic declination throughout the township is 16°30' E.</p>

CERTIFICATE OF SURVEY

~~XX~~ (We), Jerry L. Thomas and Douglas A. Cody, HEREBY

CERTIFY upon honor that, in pursuance of special instructions bearing date of the 21st day

of July, 1970, ~~XX~~ (We) have retraced portions of the north boundaries of Tps. 3 N., Rs. 20 and 21 E., (Utah-Wyoming State Boundary), and dependently resurveyed portions of the south and east boundaries, and a portion of the subdivisional lines, and surveyed a portion of the subdivision lines in sections 15, 22, and 23, and a portion of the Flaming Gorge Recreation Area Boundary in Township 3 North, Range 20 East,

of the Salt Lake Meridian, in the State of Utah, which are represented in the foregoing field notes as having been executed by ~~XX~~ (us) and under ~~XX~~ (our) direction; and that said survey has been made in strict conformity with said special instructions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in specific manner described in the foregoing field notes.

BUREAU OF LAND MANAGEMENT
Denver, Colorado

The foregoing field notes of the retracement of portions of the north boundaries of Tps. 3 N., Rs. 20 and 21 E., (Utah-Wyoming State Boundary), and the dependent resurvey of portions of the south and east boundaries, and a portion of the subdivisional lines, and the survey of a portion of the subdivision lines in sections 15, 22, and 23, and a portion of the Flaming Gorge Recreation Area Boundary in Township 3 North, Range 20 East, Salt Lake Meridian, Utah

executed by Jerry L. Thomas, Supervisory Cadastral Surveyor
Douglas A. Cody, Cadastral Surveyor
having been critically examined and found correct, are hereby approved.

The following field notes describe the dependent resurvey of the north 3 miles of the west boundary and a portion of the subdivisional lines of Township 23 South, Range 6 East, Salt Lake Meridian, Utah.

The survey was executed in accordance with specifications set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group No. 577, Utah, dated April 17, 1978.

Preliminary to the resurvey the lines of the original survey were retraced and search was made for all corners and other calls of the record. Identified corners were remonumented in their original positions; lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were verified and only the true line field notes are given herein.

The directions of lines were determined by means of fore- and backsights and angular deflections from azimuths obtained by observations on Polaris.

The geographic position of the northwest cor. of the township, identical with U.S.G.S. triangulation station "SEC COR 36/22S/5E" is as follows:

Township 23 S., R. 6 E., Salt Lake Meridian, Utah

CHAINS

Latitude $38^{\circ} 51' 04.875''$ N; Longitude $111^{\circ} 17' 53.343''$ W
 The mean magnetic declination is $14^{\circ} 10'$ E.

Dependent Resurvey of a Portion of the W. Bdy.
 of T. 23 S., R. 6 E., Salt Lake Meridian, Utah

(Restoring the 1873 Survey and the 1881 Retracement
 Executed by A.D. Ferron)

Beginning at the cor. of secs. 13, 18, 19, and 24,
 Tps. 23 S., Rs. 5 and 6 E., monumented with an iron post,
 2 ins. diam., extending 12 ins. above ground, mkd. as
 described in the official record of the 1937 resurvey.

N. $0^{\circ} 06'$ E., bet. secs. 13 and 18.

39.25 Point selected for the witness cor. to the $\frac{1}{4}$ sec. cor.
 of secs. 13 and 18.

Set an iron post, 28 ins. long, $2\frac{1}{2}$ ins. diam., 24 ins.
 in the ground, encircled with a collar of stone, with
 brass cap mkd.

Cor. is located on the S bank of Ivie Creek.

40.25 True point for the $\frac{1}{4}$ sec. cor. of secs. 13 and 18, at
 proportionate distance, falls in Ivie Creek, which drains
 irregularly E; there is no remaining evidence of the
 original corner.

Across rolling desert land.

80.50 The cor. of secs. 7, 12, 13, and 18, monumented with a
 sandstone, 18 x 5 x 2 ins., firmly set 8 ins. in the
 ground and plainly mkd., 2 notches on the N and 4 notches
 on the S edges.

At the corner point

Set an aluminum alloy post, 28 ins. long, $2\frac{1}{2}$ ins. diam.,
 24 ins. in the ground, with aluminum cap mkd.

CERTIFICATE OF SURVEY

~~XX~~ (We), Glen B. Hatch, Supervisory Cadastral Survey and , HEREBY
 Ferrel D. Reynolds, Cadastral Surveyor
 CERTIFY upon honor that, in pursuance of special instructions bearing date of the 17th day
 of April, 1978 ~~XX~~ (We) have dependently resurveyed the north 3
 miles of the west boundary and a portion of the subdivisional lines of
 T. 23 S., R. 6 E.,

of the Salt Lake Meridian, in the State of Utah, which
 are represented in the foregoing field notes as having been executed by ~~(me)~~, (us) and under ~~(my)~~
 (our) direction; and that said survey has been made in strict conformity with said special instruc-
 tions, the Manual of Instructions for the Survey of the Public Lands of the United States, and in
 specific manner described in the foregoing field notes.

Concurrently

The following field notes describe the dependent resurvey of the Salt Lake Meridian through Township 6 North, the east 3 miles of the north boundary, and a portion of the subdivisional lines, and the survey of a partial subdivision of sections 10, 24 and 26 of Township 6 North, Range 1 West, Salt Lake Meridian, Utah.

The survey was executed in accordance with specifications as set forth in the Manual of Surveying Instructions, 1973, and the Special Instructions for Group 590, Utah, dated March 29, 1979.

The directions of lines were determined by reference to true meridians established on line by altitude observations on the sun, and by hour angle observations on Polaris. The lines were carried forward by sustained angulation being supplemented by other observations on Polaris taken throughout the progress of the survey. Distances were determined by electronic measurement.

Township 6 North, Range 1 West, Salt Lake Meridian, Utah

CHAINS

Preliminary to the resurvey, the lines of the original survey were retraced and a diligent search was made for any evidence of the original corners or other calls of the original field note record. Identified corners were remonumented in their original positions, lost corners were restored and monumented at proportionate positions based on the original record. The retracement data were thoroughly verified and only the true line field notes are given herein.

The geographic position of the southeast corner of the township as determined from a tie made to United States Coast and Geodetic Survey triangulation station "Ogden Peak 2", located in the NW $\frac{1}{4}$ of sec. 6, T. 5 N., R. 1 E., is as follows:

Latitude 41° 12' 18.7" N. Longitude 111° 53' 25.3" W.

The mean magnetic declination is 15° 20' E.

Dependent Resurvey of the Salt Lake Meridian Through
T. 6 N., R. 1 W., Salt Lake Meridian, Utah

(Restoring the Survey Executed by Adolphe Jessen in 1884, and the Resurveys by Nephi P. Anderson in 1892, Glen B. Hatch and Fred R. Chappell in 1966)

Beginning at the cor. of Tps. 5 and 6 N., R. 1 E. and 1 W., described in the official record of the dependent resurvey of the Salt Lake Meridian through a portion of T. 5 N., executed concurrently under this same group.

N. 0° 25' W., bet. secs. 31 and 36.

Over mountainous land; desc. steep rocky N slope.

40.17 Point for the $\frac{1}{4}$ sec. cor. of secs. 31 and 36, at proportionate distance; this cor. was not monumented in the original survey.

Set an aluminum post, 28 ins. long, 2 $\frac{1}{2}$ ins. diam., 24 ins. in the ground, encircled by a collar of stone, with aluminum cap mkd.

Township 6 North, Range 1 West, Salt Lake Meridian, Utah

CHAINS

General Description

Access is by way of Interstate Highway Nos. 80 and 15 and State Highway No. 39 and 89 along Harrison Blvd.

There are scattering stands of timber including aspen, maple, birch, and pine. The undergrowth consists of oak brush and sagebrush.

The principal use of the area is for watershed and recreation by hunters, hikers and campers.

The improvements noted were development of subdivisions for private homes located in the west half of the west half of sec. 10 and NE $\frac{1}{4}$ and SE $\frac{1}{4}$ of NW $\frac{1}{4}$ and north half of the SW $\frac{1}{4}$ of sec. 24.

The mean of a considerable number of observations of the magnetic declination through the township is 15° 20' E.
